RFP Number: 2026-001
Issuing Agency: Acme Corporation
Title: Customer Data Platform Implementation
Client: Acme Corporation
Deadline for Submission: November 15, 2026, 5:00 PM EST
Budget: $250,000

1. Overview
Acme Corporation seeks a Customer Data Platform (CDP) to unify customer data across three business units and provide a single customer view.

2. Requirements
The vendor must deliver the following:
- Real-time customer data ingestion from Salesforce, HubSpot, and MySQL
- Identity resolution and profile unification across channels
  - Deterministic matching on email and phone
  - Stochastic matching on name and address
- GDPR-compliant data deletion and opt-out handling
- API access for downstream analytics tools
- Support for 10 million customer records

3. Deliverables
- Deployed CDP platform in AWS (us-east-1)
- Data migration for existing customer records
- API documentation and SDKs (Python and JavaScript)
- User training for data engineering team
- 12-month support and maintenance agreement

4. Evaluation Criteria
Proposals will be scored on the following:
- Technical approach and architecture (30%)
- Vendor experience and relevant case studies (20%)
- Cost and value proposition (20%)
- Project timeline and delivery methodology (15%)
- Team qualifications and staffing plan (15%)

5. Submission Requirements
- Submit proposals via Acme Procurement Portal by the deadline
- Maximum 25 pages, 12-point font, PDF format
- Include cover letter, technical proposal, and cost proposal
- One hard copy and one electronic copy required
- Contact: procurement@acmecorp.com, (555) 123-4567
